COTTON CHATS

TRADE-MARK REG. U.S. PAT. OFF.

DRAPER CORPORATION

HOPEDALE MASS.

NO. 184. FEBRUARY 1918.

THE PRESENT WAR PROFITS

on Common looms are not a reason for continuing to operate Common looms indefinitely.

NOW

is the time to plan for replacing Common looms with Northrop Looms.

Whatever may be the profits of mills having Common looms today they would have been much greater if equipped with Northrop Looms.

The mill having Common looms that does not lay aside a part of its war profits to provide a Northrop Loom equipment is failing in its duties to its Stockholders.

Large quantities of cloth are being woven on Northrop Looms for Government use.

Army uniform goods, blankets, aeroplane cloth, tent cloth, bandage cloths, shirtings, surgeon's gauze, and in fact practically everything except ply duck goods woven on Northrop looms meet the Government requirements as to quality and in this way bear evidence of the increasing range of fabrics that the Northrop loom will handle and of the high quality of the product.

The illustration on opposite page shows a part of our pile of Common loom scrap on the way to the foundry; the view was taken about October, 1917.

Old Looms for New

NORTHROP LOOM REPAIRS

TRADE-MARK

Our loom repairs are made from the same patterns as the parts that they replace on the Northrop looms; they are machined with the same tools, jigs and fixtures; they are made from the same high grade materials.

It is evident that repairs made under our conditions are better than those made in job foundries and shops, and without our interest in the working of the Northrop loom.

Draper Corporation service goes with our goods.

Our prices for Looms and other repairs are low.

We carry several hundred tons of Finished Loom repairs in stock for the convenience of our customers.
